

K-Love serves me in a tremendous way. It allows me to relax in my morning drive on my way to work; it makes my work day much smoother and on my drive home, helps with the rush hour. The effect on this community, I feel, would not be well. A large number of people listen to K-Love and depend on hearing the word of God on a daily basis. This would disrupt their choice, as a Christian, on listening to a truly unique radio station and is not in the public interest to shut it down.
